CH225

Clipper® Vise Lacer

The Clipper® Vise Lacer is the ideal lacing tool for the user with only a few conveyor belts, while providing the reliability and performance of a machine splice. It is also easy to use and inexpensive.

Simply place the lacer in a vise, load the hooks, insert the belt, and close the vise. The exclusive built-in pressure plate ensures a consistent clinch for long-lasting splices. And the Acusteel™ Hook Retainer produces an optimal loop profile for maximum splice performance.

Vise Lacers are available for all series of Clipper hook sizes in widths up to 10" (250 mm). Wider belts can be laced in multiple operations with the easy-to-use continuous lacing feature.

Market applications

- Agriculture
- Food processing
- Bowling alleys
- Laundry & textiles
- General manufacturing

Vise Lacer

For Hook Size:	Tool Width		Ordering Number
	in.	mm	
2-7, U2SP-U7	4	100	R-4
